Seasonal greetings to all URMPM members! I hope that the New Year brings for all of us a more peaceful world and greater awareness about and more real action on major risks of our time such as climate change, diseases such as HIV/AIDS, and acute poverty. Let us continue to contribute as scholars to these ends.

The Institute for Safe Medication Practices (ISMP) wishes the Union of Risk Management for Preventive Medicine (URMPM) and its member organizations happy holidays and a productive new year.

Medication safety cannot be accomplished without collaboration between all healthcare stakeholders, domestically and internationally. ISMP is looking forward to working with URMPM in 2007 to bring greater awareness to risk management issues, prevent errors, and ensure safe medication use.
