

'International Forum of Crisis Management for Infectious Disease'

Venue: The University of Tokyo, Medical Campus

Date: November 17(Sat) -18(Sun), 2007

URL: <http://www.urmpm.org/Infection2007/>

## **Welcome to the Forum**

Dir Sir/ Madam

Since Union of Risk Management for Preventive Medicine (URMPM) was born in Switzerland in 2002, the current members distribute over 70 countries in both of developed countries and underdeveloped countries, including many international regulatory organizations, such as UN, UNU, WHO, OECD, UNEP, ILO. The URMPM hold e-conference for SARS crisis in 2003, which had been accessed by over 6000 around the world.

According to urgent requests by our members in the URMPM, the International Forum of Crisis Management of Infectious Disease now launches in November 2007. The target risk is newly-born infectious diseases.

A time might be the last year before a world storm that several ten million people die by Avian Flu. To share the experiences, the knowledge and the skills of preventive and crisis phases of infectious disease is very clearly important to brush up fine risk and crisis management system in the international and national aspects.

Our URMPM wishes that all of you will join together in the word to elucidate our better cooperation to the coming crisis in our planet.

Sincerely

The Forum Program Committee
