CONTENTS

Prologue and Overview

Ryoji Sakai (Swiss Federal Institute of Technology, etc)

Greetings

Som-Arch Wongkhomthing (Previous Director of ASEAN Institute of Health Development, Mahidol University, Thailand)

Taro Shirakawa (Chair, Graduate School of Public Health, University of Tokyo, Japan)

Alexander Pivovarov (Ukrainian State Chemical-Technology University, Ukraine)

Session Summary

Risk, Different Cultures and Science

A. Pat Caplan (University of London, UK)

Statistics in Risk Management for Preventive Medicine.

Stephan Morgenthaler (Swiss Federal Institute of Technology, Switzerland)

Risk Management in Urban Safety and Health.

Björn Malber (Chalmers Institute of Technology, Sweden)

Clinical Preventive Medicine.

Shinichi Niwa (Fukushima Prefectural University, Japan)

. Risk, Different Cultures and Science

Can Risk Management be Universal? The Significance of Cultural and Social Differences.

A. Pat Caplan (University of London, UK)

Risk Perceptron (Element of Perception)

Ryoji Sakai and Shirley. V. V. Chaves (Swiss Federal Institute of Technology, World Health Risk Management Center, etc)

Transparency and Trust in Risk Management - The VALDOC Approach.

Kjell Andersson (Karita Research, Sweden)

Risk Aversion as Risk Management in Medicine.

Max Kälin (Swiss Federal Institute of Technology, Switzerland)

Paradox of Risk Control: Sociological Observation of Risk.

Toru Hijikata (Seigakuin University, Japan)

. Principles and Methods in Preventive Risk Management

(Evidenced Management Strategy and Risk Marketing)

Risk Management Issues in Intestinal Parasite Control - The Importance of Cost-Effectiveness.
Nicholas Mascie-Taylor (University of Cambridge, UK)

Evidence-based Health Policy for Suicide Prevention in Japan.
Yutaka Motohashi (Akita University, Japan)

Insurance-Derivative Delivers a Huge Risk Capacity.
Kaoru Hijikata (HITACHI, Co., Japan)

(Biological Aspect)

Risk Assessment Applied to Endocrine-Disrupting Chemicals.
Hidekuni Inadera and Kouji Matsushima (University of Tokyo, Japan)

Ecocytogenetics: A New Approach to Preventive Medicine in the 21st Century.
Aleksandra Fučić and Joe. N. Lucas (University of California, USA)

(Risk Behavior)

Measurement of Risk Evaluation Characteristics of Decision Makers in Disaster Prevention and Mitigation Actions, Focusing of the Behavior of Households Toward Purchasing Insurance.
Ryuichi Shibasaki and Hitoshi Ieda (University of Tokyo, Japan)

Health Risk Behavior in Agricultural Workers: Experience with Oil Palm Plantation Workers in Malaysia.
Rusli B. Nordin's Group (University of Science Malaysia, Malaysia)

(Risk Management Statistics and Risk Engineering)

Assessing Evidence for Risk Management.
Takashi Yanagawa (Kyushu University, Japan)

Mathematical and Statistical Approaches to Risk Management for the Prevention of HIV/AIDS and Other Infectious Diseases.
Masayuki Kakehashi and Rao Arni S. R. Srinivasa (Hiroshima University, Japan, etc)

Health Impact of Biological Weapons.
Minoru Sugita (Tohou University, Japan)

(Risk Informatics and Risk Monitoring)

Climate Change and Human Health: Zoonotic Parasitic Diseases in Europe and Vector Population Dynamics.
Bruno Gottstein (University of Bern, Institute of Parasitology, Switzerland)

Analysis of Incidents in Medical Treatment Using Electronic Patient Record System.
Hiruyuki A. Watanabe, Hiroko Hikoyama, Hideko Takazawa, Kumiko Kasuya, Mieko Matsumoto, Chieko Ohsaki, Kazuko Kozuka and Hiroaki Nakajima (Showa University, Japan)

(Forensic Medicine Aspect)

Death May Have its Benefits - The Role of Forensic Pathology in Medical Audit.
Gilbert Lau (Health Sciences Authority, Singapore)

Hospital Risk Management and Forensic Pathology.
Philip S.L. Beh (University of Hong Kong, Hong Kong)

(Risk Education)

The Possibility to Communicate, Interchange and Share the Health and Risk related View Among Ordinary People Living in Different Asian Countries.
Masaki Moriyama, Keiko Tanaka, Kayo Ushijima, Yoshihiro Miyake and Masashi Arakawa . (Fukuoka University, Japan)

Reducing the Risk of Medical Disputes Through Health Communication.
Akihito Hagihara (Kyushu University, Japan)

Health Promotion, Health Education and Risk Education: Asian Perspectives.
Azim A. Majumder (University of Science Malaysia, Malaysia)

. Current Activities in Individual Risk Management Program

(Environment, Ecology, Urban- Rural, Disasters and Accidents)

Quantifying Particulate Air Pollution with Respect to Human Health.
Markus Kasper, Konstantin Siegmann and Hans C. Siegmann (Swiss Federal Institute of Technology, Switzerland and Stanford University, USA)
Health Effects Due to Air Pollution in China.
Stefan Hirschberg and Thomas Heck (Paul Scherrer Institute, Switzerland)

Risk Assessment and Risk Management for Living Systems Under Extreme Conditions.
Vsevolod V. Shakin (Russian Academy of Science, Russia)

The Modern Processes of Water Treatment for Improving the Living Standards.
Alexander A. Pivovarov (Ukrainian State Chemical-Technology University, Ukraine)

Ecological Instability in Ukraine and Possible Ways of Overcoming It.
Alexander A. Pivovarov (Ukrainian State Chemical-Technology University, Ukraine)

Preventable Traumatic Deaths in Transkei, South Africa.
Banwari L. Meel (University of Transkei, South Africa)

(Mental Health)

Suicide Can be Prevented.
Danuta Wasserman (Karolinska Institute, Sweden)

School Crisis Intervention in the Ikeda Incident.
Naoyasu Motomura (Osaka Kyoiku University, Japan)

(Aging Population)

Risk Management in Nursing Homes -A Conflict Between Human Rights and Safety.

Yutaka Sakurai, Mari Sakurai and Tomomi Katagiri (National Defense Medical College, Japan)

(Medical Accident, Drug Safety)

Influence of Legal Sanctions on Prevention of Medical Accidents.

Yoshitaka Wada (Kyushu University, Japan)

The Present State of Medical Accidents and Malpractices by Japanese Doctors - An Outline of Seven Years of Activities by the Japanese Society for Investigation of Medical Accidents.

Isao Mori, Siho Iwane and Sachiyo Fujimoto (Japanese Society for Investigation of Medical Accidents, Japan)

Analysis of Retention of Gauzes and Needle After Surgery in Our Hospital.

Hiroyuki A. Watanabe, Kazushige Arai, Kazuyuki Serada, Fujiko Ibe, Sachie Chiba , Masahiro Chiba and Horoaki Nakajima (Showa University, Japan)

Effect of Endocrine Disturbing Substance in Patients Receiving Dialysis therapy on Estrogen Receptor Gene Transcription.

Yoshihiko Kanno, Tatsuya Kobayashi, Hirokazu Okada and Hiromichi Suzuki (Saitama Medical University, Japan)

(Communicable Disease)

Challenges in Global Partnerships to Combat HIV/AIDS Pandemic

Osamu Kunii (Japan Government, Japan)

'A-Bakterin' –Probiotic of the New Generation. History of its Creation and Perspectives on Usage and Improvement.

Kremenchuts'kyi Gennadiy (Dniepropetrovsk State Medical Academy, Ukraine)

(Occupational Health)

Occupational Safety and Health Management System: Thailand Experiences..

Chaiyuth Chavalitnitikul (Thailand Government, Thailand)

Occupational Safety and Health Management System in Small and Medium Enterprises (SMEs) in Thailand.

Chalermchai Chaikittiporn (Mahidol University, Thailand)

Prevalence of Hearing Loss Among Former Mineworkers of the Former Black Homeland of Transkei, South Africa.

Banwari L. Meel (University of Transkei, South Africa)
